Thinking Out Loud

By H. M. L.

While everyone is offering panaceas for labor troubles, we rise to remark that fundamentally the trouble is due to deterioration of human relations. Bosses no longer know the men who work for them by their first names. Employees have come to regard their bosses as flinty hearted task masters. The old loyalties of worker to his boss, and boss to his workers, have too often been tossed out of the window. The antagonisms which have resulted have cost this country a lot of money. The only beneficiaries have been demagogues in politics, in labor organizations, and in industry. Labor has suffered, and industry, and the public most of all.

Once in a while industrial concerns have tried to get back the old feeling of loyalty, from which grows that unity in common endeavor reflected in contentment of workers, stockholders and management. Sometimes this is accomplished by the boss himself, who assigns most of his office duties to subordinates and makes it his business to know his men individually, giving them his sympathetic understanding and help whenever he can. In other cases a personnel staff is employed whose duties are primarily to encourage and maintain a spirit of loyalty reciprocal between management and workers.

Ambassador Kennedy's testimony regarding the lease-lend bill before the House committee on Foreign Affairs Tuesday, was as clear as mud. He gave an exhibition of a great stock broker facing two ways. He was a bull facing west and bear facing east. We begin to wonder just what President Roosevelt saw in him to make him worthy of his appointment as ambassador to Great Britain. Kennedy's star began to dim when he quit his job.

Aside from the President, the only man who so far has earned his headlines in the present debate over the lease-lend bill, is Wendell Willkie, and while we regard his trip to London with misgiving, we hope that the information he receives and imparts to his people will help to divest the issue involved of a lot of debris. Even beclouded as it is by all kinds of isolationist fuddlement, such as reflected in Kennedy's statements, we think the answer to many questions are becoming clearer every day. For instance:

Is this country's defense bound up with that of Great Britain. It is.

How far must we go in the defense of Great Britain to make our own national defense effective? All the way.

Will that involve the United States in war? It may. That will depend upon Mr. Hitler. Whenever he deems it to his advantage he will declare war on the United States. He doesn't have to have an excuse.

Should the President be delegated power to make this country an "arsenal of world democracy" and to provide "all out aid" to Great Britain. He should, provided:

(a) That a time limit is set on his exercise of this power.

(b) That he be required to abide by the decision of army and navy experts regarding what equipment can be spared fom our own supplies for arming forces opposing the dictators.

(c) That no "blank check" is placed at the President's disposal, but that a non-partisan Congressional committee be appointed to O. K. proposed expenditures.

The last provision named above we consider of almost as much importance as the others. A President, who, in a press conference refers to the "silly, foolish dollar sign" betrays a philosophy of life singularlyakin to that of the prodigal son in the Bible story. And, not withstanding the good ending of that story, our observation is that few prodigal sons repent.

Booster Organization Holds Enthusiastic Gathering Here; Highway Meeting Plans Made

Instilled with enthusiasm as a result of good attendance, the local chamber of commerce last night accomplished considerable work of benefit to the community.

The most important topic to come before the booster organization was the meeting here February 15th of the Tahoe-Pacific Highway 20 Association.

The chamber plans to royally entertain the visiting association delegates and committees were appointed to carry out the arrangements for the meeting.

Foreman Chairman

Bert Foreman, president of the local chamber, is general chairman of the committees. The program committee is composed of Foreman, Lambert Thomas and H. E. Kjorlie; the entertainment committee Guerdon Ellis and A. C. Presley; the hospitality committee H. F. Sofge and George Gildersleeve: the dinner committee Richard Worth and Dwight Steele and the publicity committee H. M. Leete and Fred Garrison.

Many Expected

Delegates of the association are expected from Fort Bragg, Willits, Lake County, Williams, Colusa and Marysville. Following a banquet the delegates will be escorted to the Elementary School Auditorium, where an entertainment program will be presented.

On Sunday, February 16th, the delegates wishing to participate in snow fun will be taken to the Nevada City chamber's snow field on the Tahoe-Ukiah Highway. Those who do not care for snow sports will be taken on a tour of this area and will visit one of the large operating mines.

Folder Planned

H. E. Kjorlie and Dwight Steele were named on a committee to make plans for printing an illustrated folder, advertising the resources of the Nevada City area. An attractive pamphlet it is believed by chamber members, will be highly advantageous in bringing tourists into Nevada City.

A resolution recommending the "federal government provide and make available from national defense appropriation funds on such basis as will insure the early completion of an adequate system of strategic highways and approach roads for proper defense" was adopted by the chamber.

The resolution, copies of which will be sent to Congressman Harry L. Englebright and United States Senator Hiram Johnson, pointed out the providing of such a system of defense highways is beyond the financial capacity of the state.

Telescope At Buttes

A motion was unanimously adopted authorizing the placing of a telescope, donated by the Nevada City Chamber of Commerce in 1912 for use on Banner Lookout, at the Sierra Buttes Lookout Station. The telescope was too large for use on Banner Lookout.

When the Sierra Buttes Lookout is dedicated next summer the local chamber will be given credit for the donation of the telescope. Supervisor Guerdon Ellis of the Tahoe Forest, advised the local chamber the telescope was recently found stored at North Bloomfield.

SNOW LINE AT 5-MILE HOUSE

Rain continues to fall in Nevada City and snow continues to pile up in the higher elevations.

The snowline today was at the Five Mile House on the Tahoe-Ukiah Highway.

The state division of highways maintenance office here reports three snowplows are keeping the Tahoe Ukiah Highway open but the Yuba Pass route is closed at Sierra City.

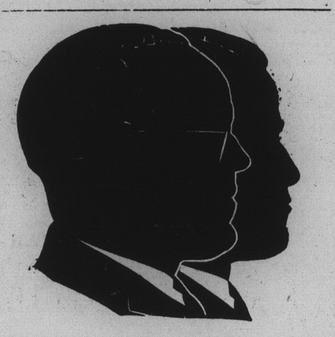
The snow pack at the Washington Junction is 15 inches, three inches of new snow; Steephollow 57 inches, seven inches of new snow and Bear Valley 24 inches, three inches of new snow.

There are three inches of snow at Depot Hill, two at Downieville and 12 at Sierra City.

SILHOUETTE CONTEST OPENS IN NUGGET MONDAY

The Nugget's Silhouette Contest will open with next Monday afternoon's edition and close the following Monday.

Silhouette's of leading business and professional men and women of the twin cities on one page will be shown. Underneath each silhouette



will be a caption giving a slight clue to the identity of the person pictured.

Jack Ellis, celebrated cut-up artist, who devised this novel contest, has put it on with great success for the Sacramento Bee, and for newspapers of Oroville, Placerville, Merced, Red Bluff and other cities.

Cash prizes will be awarded those giving the correct names of those whose silhouettes appear, and the names of their firms, in the neatest and most orderly manner. Annoucement of the rules will appear on the page with the silhouettes, and the correct names and the prize winners will appear the following Monday.

The silhouette printed herewith, a sample of those that will appear Monday, is that of a businessman of another California city, so don't try to guess his name.

LEGISLATIVE HEARING CALLS SUPERVISORS

Four Nevada County supervisors and County Clerk R. N. McCormack are in attendance at the legislative committee hearing in Sacramento today on the Five County plan.

The five Nevada Countyans are expected to voice opposition to the plan, which would incorporate the state's 57 present counties into five huge counties.

Warren Odell, Cary Arbogast, Jay Coughlan and Alex Robertson were this county's supervisors present at the legislative hearing.

Will Go To Marysville—

President Bert Foreman and Secretary H. F. Sofge of the local chamber of commerce will go to Marysville within a day or two to confer with Jack Kaufman, secretary of the Tahoe-Pacific Highway 20 Association, on plans for the meeting of the organization here February 15th.

Closed Shop Demand Only Issue Involved In Labor Dispute

President Olney Donnelly reiterated today the only issue in dispute with the mine owners in the present labor controversy is the demand for the closed shop.

"All we ask is that we be the bargaining agency for all the mine employees instead of just league members, which has been the case in our previous contracts," Donnelly said. "We are nt asking the mines to take dues from the men's paychecks. There also is a mistaken idea we are asking for a hiring hall. This is not true. We have no desire to select the employees of the mines."

Meeting Tonight—

Teachers of Nevada County will meet at the Union Hill school tonight to discuss plans for a new course of study reading in county schools. Superintendent of Schools Walter Carlson will preside over the gathering.

Sacramento Visitor—

James Penrose was a business visitor in Sacramento today.

Empire-Star And Mine Workers Union Give Position In Controversy Which Led To Today's Strike Vote

Idado-Maryland Mines Position

The Idaho-Maryland Mines Corporation, which operates the Idaho-Maryland, New Brunswick and Bullion Mines, explained its position on the present labor controversy in a letter to C. W. Rose, secretary of the Mine Wokers Protective League's negotiating committee.

The letter was written by Albert Crase, general manager of the Idaho Maryland Mines.

A vote will be taken among the more than 900 employees of the Idaho-Maryland next week to determine whether they desire the league as their bargaining agency.

Letter Follows

The Idaho-Maryland letter to Rose follows:

"Your Committee has presented to the undersigned, Idaho Maryland Mines Corporation, a new form of contract, in which it is provided that your League be designated as the sole bargaining agent for all of our employees. This demand is quite a departure from the previous contracts, which provided that your League be designated as the sole bargaining agent for your members only.

"We are advised by our attorneys that, according to the recognized rules of collective bargaining, no agency can properly be designated as the sole bargaining agent for all employes, unless it is clearly demonstrated that such agency represents a majority of the men employed, or at least a majority of those who vote at an election for the purpose of determining the bargaining agent. The Idaho is heartily in sympathy with the principles of collective bargaining, and, if it should appear by an election that your League represents a majority of our employes, or of those voting for a bargaining agent, we will proceed to negotiate a new contract with you.

"We have in mind that, if you wish to be recognized as sole bargaining agent, an election be called and held, at mutually satisfactory places, that notice of the time and place of such election be duly given, and that suitable precautions be taken to insure the secrecy of the ballot. We had thought of asking the County Clerk, who is familiar with the conduct of elections, to designate tellers for such an election, who shall be impartial persons not connected in any way with the Idaho. The only representatives we would desire to have at the election booths would be such members of our personnel force as may be able properly to idendtify the employes before they cast their votes.

"In view of the fact that many industries are now on a five-day week, we also desire to have included in the ballot a questionnaire as to the preference of the men for a six day week or a five day week, to be used as a factor to be considered in the future working policy of the Idaho, although we wish it to be understood that we will regard the voting on this question as an expression of opinion and not binding on the Idaho. I may add that we are not now contemplating any immediate change in the work week.

"We would like you to understand that, in this letter, we are acting solely on our own behalf, and do not speak for the other operators, as we are advised by our attorneys that, in the matter of the selection of a bagaining agent, the employes of any operator are entitled to determine the question for themselves, without regard to what bargaining agent the employes of any other operator might select; and that, therefore, it would be improper for us to have the bargaining agent for the employes of the Idaho determined at a general election of employes of all the mines.

"We would appreciate your advising us as to whether you desire, under the circumstances, to have an election, or to limit any new contract to your members only.

PROPOSED VETERANS MEMORIAL BUILDING WILL BE DISCUSSED AT NEXT WEEK'S ROTARY MEET

ROTARY CLUB HEARS SHERIFF

Sheriff Carl Tobiassen, guest speaker of the Rotary club today, told of the steps being taken by the peace officers associations and especially by the sheriffs of the state in assisting the Federal Bureau of Investigation in detecting anything in the nature of subversive activity.

Incidentally he revealed the fact that the chief of the FBI, J, Edgar Hoover, has written him a personal letter praising him for the careful and exhaustive work he has done in following up clues provided by the FBI.

The sheriff said that during the past six years 1800 prisoners have been cared for in this county, more than passed through the sheriff's office in the 20 years preceding 1934. Despite this greatly increased work imposed on the sheriff's office, he had been able to follow suggestions made by the FBI and to render real service in the investigation of aliens and others suspected of subversive activity.

Sheriff Tobiassen appealed to members of the Rotary club to be alert for any indication of sabotage, espionage or treason. While the sheriff admitted that most of the tips received either brought in by some one with a grudge against an innocent citizen or neighbor, or were merely suspicion with no substantial basis in fact, occasionally very important clues have been received.

The attorney general, Earl Warren, stated the sheriff, is already perfecting an organization of peace officers, that is believed will effectually check subversive tendencies wherever they may occur. The sheriff called attention to the vital part the fifth column played in Hitler's conquest of Norway, Denmark, Belgium, Holland and France, and while this country was not now at war with the totalitarian states, the trend was in that direction and that we should use every practical means to prevent, a fifth column from developing in the United States.

The possibilities of a Veterans' Memorial Building for Nevada City and the steps necessary to obtain such a project will be explained on Thursday, January 30th when the Nevada City Rotary Club presents Howard C. Bennetts, commander of Banner Mt. V. F. W., past commander of Hague-Thomas-Hegarty Post American Legion and Chairman of the Nevada County Advisory board, at its regular meeting.

This announcement was made by President Walter A. Carlson of the local club and Secretary Fred Garrison has sent invitations to the Nevada City Chamber of Commerce, Grass Valley Rotary Club, Nevada City Co-Ordinating Council, Women's Civic Club, Elementary P. T. A. High School P. T. A. and the Nevada City Chapter, Business and Professional Womens' Club to send delegations to the meeting.

The speaker will be introduced by January program chairman, Chester Scheemer. Reservations are to be made with the Secretary.

Arrangements Being Made For Elks Dinner Here Next Thursday

The Elks Lodge entertainment committee is preparing arrangements for a dinner at the Elks Hall here next Thursday night.

Three Elk candidates will be initiated and special entertainment will be presented. The dinner will consist of raviolas, spaghetti and chicken.

The committee announces the dinner will start promptly at 6:30 p. m.

Balloting On Strike Proposal Will End At 7 Tonight

Nevada County residents are anxiously awaiting the result of the vote today on whether or not a strike will be called by the Mine Workers Protective League against many of the mines in the Nevada City-Grass Valley area. The league is seeking a closed shop in its new contract, a clause the mine owners refuse to grant.

The strike vote is being taken in the Auditorium Hall in Grass Valley. The polls will remain open until 7 p. m.

Heavy Vote Expected

The voting is expected to be especially heavy between 4 and 7 p. m. when the day shift men cast their ballots. Only paid up members of the league are eligible to vote.

The mines effected by the vote are the North Star, Empire, Pennsylvania, Murchie, Spring Hill, Zeibright, Scotia and Golden Center. Five of the mines are operated by the Empire-Star Mines, Ltd.

Independent Vote

The vote may also apply to the Idaho-Maryland Mines Corporation properties. However, an independent vote is to be taken next week among the Idaho employees to determine whether they desire the league as their bargaining agency. The Idaho-Maryland officials agree to abide by the results of the vote.

Since the strike vote was called at a mass meeting of league members Sunday night, both the independent labor union and the Empire-Star Mines issued statements on their position in the controversy.

The Empire-Star Mines statement given by Fred Searls, Jr., president, was highlighted by the assertion as long as the company continues to operate its mine "it will decline to force any employee to join any union."

"In order that its position may be perfectly clear," Searls said, "and to avoid any misunderstanding on the part of any employee, or on the part of the citizens of Nevada County, Empire-Star Mines Company makes the following statement:

"Recognizes and desires to continue to recognize the Nevada County Mine Workers Protective League as the sole bargaining agency with which it will discuss conditions of employment at its properties. It recognizes the league as duly authorized to speak for all employees who are members of the league. It has had no dispute, and has no dispute now with the league as to pay, or as to hours, or conditions of work.

"The sole question on which Empie-Star Mines Company has been unable to agree with Mr. Donnelly has been and is that the company refuses to require all employees, as a condition of their employment, to join the league.

"Such proceedure the company believes to be un-American and of doubtful legality.

"It is the right of any employee to join any union or no union. As long as the company continues to operate its mines it will decline to force any employee to join any union."

The statement of Olney Donnelly, president of the protective league is as follows:

"In connection with the labor situation and also the strike vote that is being taken today, there seems to be some misunderstanding.

"To clear this up, I would like to make this statement, and I want to call the attention of the members who are employees of the Idaho-Maryland Mines in particular.

"Every member who is an employee of the Idaho-Maryland, Brunswick or Bullion mines is normally obligated and requested to vote at the election to strike unless the closed shop is granted.

"In the event that the employees of the Idaho-Maryland Mines vote

'You Guys Wouldn't Hurt Her?'

Many California fathers must feel as Otto E. Holman, San Franciscan, felt the other day when, alarmed at the winter upshoot in traffic accidents, he sent the following plea for his 7-year-old daughter to the motorists of his city through a letter to the San Francisco "News".

"She's back from school now," he wrote—"back in the nursery sound asleep, with 'Princess Elizabeth' (that's her doll) cuddled in her right arm. You guys wouldn't hurt her, would you? When her doll is broken or her finger is cut, or her head gets bumped, I can fix that, but when she starts to school—when she walks across the street—then she's in your hands. She's a nice kid, and she can run like a deer and darts around like a chipmunk. She likes to ride horses and swim and hike with me on Sunday afternoons. But I can't be with her all the time—I have to work to pay for her clothes and her education. So please help me look out for her. Please drive carefully—please remember that children run behind parked cars—and please drive slowly past the schools and the intersections. Please don't run over my little girl.—Her father."

That is a father's plea to be heeded—especially during winter months of long nights and short days, of rain-treacherous pavements and foggy stretches of highway. Simple heeding of that plea for safe driving could save the lives of many older pedestrians and motorists. And surely winter caution should save motorists of this State and all States from the anguish of knowledge that some father's little girl has been terribly hurt—unintentionally but inexcusably.—Contributed.

taxes! Taxes! TAXES!!

Just now the staggering but necessary sacrifices for national defense hold the attention of the nation's taxpayers. For this year, the national budget will top 13 billion dollars. And for 1942, it will exceed 17 billion dollars. All the more timely, therefore, is a sobering pamphlet, titled "Income and Expenditures of Government in California", issued this week by the California Taxpeyers' Association and dealing solely with taxes levied upon Californians by their own California tax-levying authorities.

Nothing taxable has ever been overlooked, the record indicates. The State began to tax automobiles back in 1905—almost before inventors had made sure the things could run! Today Californians pay to the State a fertilizer tax, corporation income tax, motor caravan tax, fish tax, private car tax, Diesel fuel tax, inheritance tax, motor vehicle tax, motor vehicle "in lieu" tax, liquor taxes, personal income tax, bank and corporation franchise tax, gasoline tax, sales tax, and unemployment insurance tax. Since 1900, the per capita valuation of wealth subject to property tax has increased hardly 20 per cent—from $804 to $1019. But the State tax bill has increased some 300 per cent in the last decade alone!

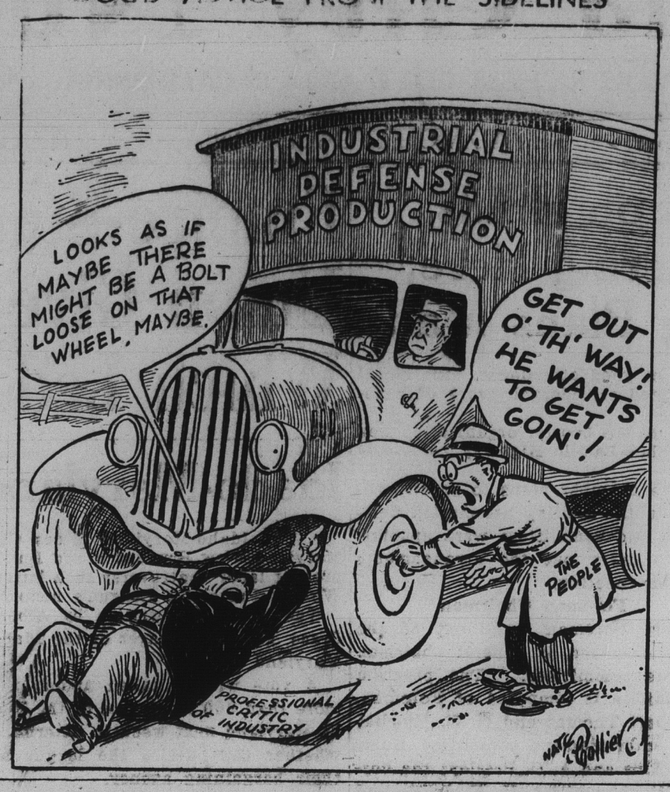
Under the circumstances, the current agitation at Sacramento to have the Legislature increase the State gas tax another cent is certain to bring a storm of disapproval from motorists and taxpayers. And it is to be hoped that civic organizations such as the State Chamber of Commerce, the All-Year Club and the Redwood Empire Association will join with the auto clubs in vigorously opposing this new imposition on the taxpayer. We can't skimp on guns and planes and tanks and warships without endangering America. But we can and must give the California taxpayer the partial relief of some good, hard, old-fashioned economy in State government. It is time to pare State budgets, not increase them; time to reduce State taxes, instead of piling new burdens on old.—Contributed.

Wendell Willkie, American

Proposal of the new aid-to-Britain bill, with its unprecedented grant of emergency powers to the President, set off a hurricane of controversy last week. Isolationists cried "It's war!"—and there were partism roars of "dictatorship!" Then Wendell Willkie, second most influential man with American public opinion, and titular leader of the opposition party, declared: "It makes a vital difference to the United States which side prevails in the present conflict. The people chose this Administration and we must abide by that choice. We must not fall into the fallacy of depriving it of powers necessary to defend us in order to preserve the mere forms of democratic procedure. We must give it the power to act in this emergency, while at the same time assuring ourselves by competent amendments of a reversion of that power to us after the emergency is over."

That was the statement of a man above partisanship—a man with whom only ideals count in a national emergency Wendell Willkie is going to England to gain first hand information on the war situation. And the tens of millions of patriotic Americans who voted against him for President will join with the tens of millions who voted for him in wishing him a safe return. No nation has ever had enough men of his caliber and intelligence and integrity. In these times America could ill afford to lose Wendell Willkie—not Wendell Willkie the ex-candidate for President, not Wendell Willkie the head of the Republican party—but Wendell Willkie, American.—Contributed.

GOOD ADVICE FROM THE SIDELINES



INDUSTRIAL DEFENSE PRODUCTION
LOOKS AS IF MAYBE THERE MIGHT BE A BOLT LOOSE ON THAT WHEEL, MAYBE.
GET OUT O' TH' WAY! HE WANTS TO GET GOIN'!
THE PEOPLE
PROFESSIONAL CRITIC OF INDUSTRY
Mark Gallier

JUST WONDERIN'

I Wonder about scientists,
Philosophers and sages;
I marvel at the miracles
With which they mark time's pages.
I often take, sometimes with qualms,
Their ounces of prevention,
And now I seek to understand
Their tricks of circumvention.

I Wonder at the efficiency with which scientists, philosophers, et al, have changed man's attitude toward the forms substances and forces in the world about him.

A modern Yankee wouldn't be obliged to travel back to King Arthur's court in order to find life different; a short trek of fifty or seventy five years into the past would be all sufficient.

Under scientific guidance, we have grown amazingly wise and versatile. We split atoms and weigh planets, we scan caves and analyze the soul of man, we plumb the fourth dimension and speak of its profound mysteries with an air of smug comprehension. Perhaps in time we shall learn how to conduct human relationships without resort to arms, and how to refrain from intemperate speech.

There are times however, when learned specialists upset preconceived notions without a moment's warning, whereat some of us are distinctly confused. Here is a recent case.

Charles H. Durfee, speaking at ameeting of the American Association for the advancement of science at Philadelphia, said; "the person who makes up his mind to abstain from alcohol is licked before he starts. By concentrating on not drinking he is inducing the state of mind which because of his preoccupation with the problem, is self defeating. He is still thinking alcohol, that is, dealing with the symptom instead of the cause. Alcohol can't be fought; it must be circumvented."

I, being of unscientific mind, had believed that in order to lick a bad habit, alcohol or otherwise, one must first recognize it as undesirable and then concentrate upon the task of fighting it to a finish—in the first round if possible.

Learning the futility of concentrated effort is rather disconcerting, but I'm beginning to discover the advantages of circumvention. One need never be sternly impolitic in dealing with one's bad habits. One can instead play merry, childlike games with them—tag, blind man's buff, or hide and seek. One may practice the arts of side stepping, running around and out. In due time, the mean old habit will fall exhausted and die for want of breath. Yes, the theory of circumvention has its fine points; its releases us from the stuffy weariness of concentration and eliminates the undignified battle for self mastery—too bad Carrie Nation wasn't told that one can't lick liquor; it would have saved her so many nicked hatchets.

Uncle Silas says: "I wonder if "my day" isn't going to be as busy as any one else's. Here is my list of things to be done: wire congratulations to President Roosevelt, bon voyage and happy landing to Mr Willkie, send a crate of head ache powders to Mussolini, get in step with the spirit of nineteen forty one, take my seat upon the preparedness band wagon and thank whatever gods there be, that I live in a democracy called—America."

—A. MERRIAM CONNER.

Mountain Top Life Will Be Sermon At Methodist Church Sunday

Mountain Top Life will be the sermon topic of Rev. David Ralston at the Methodist Church services Sunday at 11 a. m. Sunday school will be held at 10 a. m.

The Epworth League will meet at 6 p. m. The topic of discussion will be Partakers of Heavenly Things. The high school group, led by Pat Presley will discuss the Courage of Christ.

Sunday night's preaching service opens at 7 p. m. There will be ten minutes of song service. Rev. Ralston's sermon will be entitled Getting Acquainted With Christ.

The week's events will include orchestra practice Monday at 7 p. m. with John Blamey conducting; bible study and prayer hour Tuesday at 7:30 p. m.; choir practice Wednesday at 7:30 p. m. and young people's prayer hour at 7:30 p. m. Wednesday.

Alex Robertson, supervisor of Truckee, registered at the National Hotel Tuesday night.

NEVADA COUNTY FARMERS CAN OBTAIN CROP AND FEED LOANS

LOAN HEADQUARTERS WILL BE AGRICULTURAL COMMISSIONER'S OFFICE IN THIS CITY

Emergency crop and feed loans for Nevada County farmers are available, Alfred Theis, Nevada and Northern California Field Supervisor of the Emergency Crop and Feed Loan section of the Farm Credit Administration announced yesterday. Headquarters for obtaining the loan will be at the office of Nevada County Agricultural Commissioner, L. G. Lageson in the county courthouse.

The loans will be made only to farmers who cannot obtain credit from any other source. Theis announced. The loans will be limited to the farmer's immediate and actual cash needs for growing his 1941 crops or for the purchase of feed for livestock and the amount which may be loaned to any one farmer in 1941 will not exceed $400.

Farmers who can obtain the funds they need from individual production credit associations, bank, or other concerns are not eligible, according to the official, for crop and feed loans from the emergency crop and feed loan section of the F. C. A. The loans will not be made to standard rehabilitation clients whose current needs are provided for by the Farm Security Administration, formerly known as the ReSettlement Administration.

Farmers who obtain emergency crop and feed loans will give as security a first lien on the crop financed, or a first lien on the livestock to be fed if the money borrowed is to be used to produce or purchase feed for livestock.

Where loans are made to tenants, the landlords or others having an interest in the crops financed or the livestock to be fed are required to waive their claims in favor of a lien to the governor of the Farm Credit Adminsitration until the loan is repaid.

Paul Raymond, Grass Valley youth charged with stealing an automobile from the Mountain Chevrolet Company, will appear before Judge George L. Jones tomorrow. The matter will be heard in the juvenile court.

Nevada City Church News

BETHANY CHURCH

Sunday school 9:45 a. m. Mrs. Blanche Brounfield has been re-elected superintendent of the Sunday school. In the coming weeks, the Sunday school will be making strides towad a record attendance. Morning worship 11 a. m. We invite young and old, rich and poor to our services. God is no respector of persons. Christ Ambassadors meet at 6:45 p. m. Be sure to attend a young peoples service at Bethany. Evangelistic service 7:30 p. m. Christ is the sinners friend. Come and know the Lord. Praise and prayer meeting on Wednesday, 7:3 p. m. Friday prayer meeting solely for prayer. Those who wish to pray come to this service.

TRINITY EPISCOPAL

Third Sunday after Epiphany. 9:45 a. m. Church School. 11:15 a. m. Morning prayer and sermon. The rector will address the congregation. Music will be led by the vested choir, under the direction of Mrs. C. A. Libbey. Miss Mary Libbey will be at the organ. Mr. William Wagner will read the lessons.

NOTICES

Adult Confirmation Class will meet in the rector's study, Friday evening at 8 o'clock.

Children's Confirmation Class will meet in the rector's study, Sunday afternoon at 2:30 o'clock.

H. THOMAS PATEMAN, Rector.

CATHOLIC CHURCH

Two masses will be celebrated Sunday at the St. Canice Catholic Church. The first mass will be at 8 a. m. and the second at 10 a. m. Father P. J. O'Reilly and Father Edward Williams will be in charge of the masses.

A lot of pedestrians in California apparently continue to cherish the delusion they can butt twelve ton trucks off the street.

GEMS OF THOUGHT

Gentility is the ability to ignore in others those faults or blemishes we will not tolerate in ourselves.—Anon

We should remember that we must not reflect on the wickedness of men, but contemplate the divine image in them; which, concealing and obliterating their faults, by its beauty and dignity allures us to embrace them in the arms of our love. —Calvin

Who hath not learned that when alone he has his own thoughts to guard, and when struggling with mankind his temper, and in society his tongue? —Mary Baker Eddy

We love ourselves notwithstanding our faults, and we ought to love our friends in like manner. —Cyrus

Unless you bear with the faults of a friend, you betray your own. —Publius Syrus

There is no outward sign of true courtesy that does not rest on a deep moral foundation. —Goethe

CHRISTIAN SCIENCE

"Truth" will be the subject of the lesson-sermon Sunday at the Nevada City Branch, Church of Christ, Scientist, at 114 Boulder Street. Sunday School starts at 9:45.

The Golden Text will be: "Thou art near, O Lord; and all thy commandments are truth. Concerning thy testimonies, I have known of old that thou hast founded them for ever" (Psalms 119:151,152). Other Bible citations will include: "And the Lord said, Behold, there is a place by me, and thou shalt stand upon a rock: . . . And the Lord passed by before him, and proclaimed, The Lord, The Lord God, merciful and gracious, long-suffering, and abundant in goodness and truth," (Exodus 33: 21; 34: 6).

The Lesson-Sermon will also include the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "In Science, Truth is divine, and the infinite God can have no unlikeness. Did God, Truth, create error? No! 'Doth a fountain send forth at the same place sweet water and bitter?' God being everywhere and all-inclusive, how can He be absent or suggest the absence of omnipresence and omnipotence?" (p. 287).

Down from Camptonville—

Herman Clendenning of Camptonville, was installed as head of the Odd Fellows Lodge here Saturday night. Clendenning came to this city Saturday afternoon and returned to his home Saturday night.

Merced County ranks among the first five counties in the United States in beef and dairy cattle production.

RECOVERING FROM INJURIES

C. C. Clemo, 45, Gold Flat area, is recovering from injuries suffered when attacked by a bull while he was leading the animal from pasture. The enraged bull knocked Clemo through a rail fence. He was not injured seriously.

Birthday Party Given For Mrs. J. R. Ivey

The birthday of Mrs. John R. Ivey was the occasion for a gathering of intimate friends and relatives at the Ivey home on Broad Street this week.

Those present were Messrs. and Mesdames Earl Sutton of Town Talk, Nick Arnoldy of Yuza City, Carl Sutton of Downieville, Joseph Kashatus, of Grass Valley, Bernard Smith of Berkeley and John R. Ivey.

Ben Franklin Would Have Made A Wonderful Railroad Man

Because he was never content for long with things so good that they could not be improved.

Benjamin Franklin—whose 235th birth anniversary was of quiet observation on January 17—was endowed with an abundance of good Yankee inquisitiveness. He could have stood before his printers' case, day after day, pegging his daily "take" of copy, earning a pleasant living, caring for protected retirement in sunset days. He didn't HAVE to leave Boston, landing in Philadelphia with the slender assets of $1.25 to start a new career. He could have left electrical discoveries and European diplomatic missions to somebody else, too, but he didn't. Ben Franklin wasn't content with good things—he strove for perfection.

The great American would have fitted perfectly in lending his enthusiasm, grand foresight and capabilities to the fascinating business of today's transportation. He would have reveled in the time saved and convenience offered when America left covered wagon ruts for the spreading fingers of steel rails that reached into new continental empires. His fondest ambitions would have found reflection in the caravans of motorized freight carriers and sleek motor busses plying their busy courses over America's ribbons of roadways. Even the great Franklin would doubtless be impressed by the winged flight of freight and passengers, from coast to coast in a day!

The Nevada County Narrow Gauge Railroad Company believes in Franklin-foresight—that modern ways demand modern means. Today its answer to an efficiency-minded public is found in the fleet of highway busses and motor-powered freight carriers it maintains. There's a finer regard for abbreviated time and comfort in travel, for safety and service without limit. There's an eager readiness on the part of each and every employee to see that streams of incoming and outgoing freight are maintained with unbroken regularity and to render a service to sender and consignee that rings with the sincerity of accomplishment.

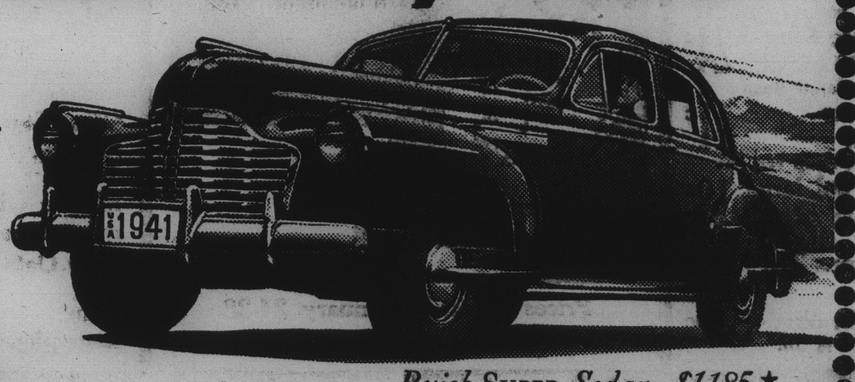
Orchids from a Holly Grower



Buick SUPER Sedan, $1185.*

ORDINARILY we don't go in for owner-testimonials.

But every now and then, along comes a letter that so perfectly portrays the way Buick owners feel about their cars that we haven't the heart to keep it from you.

Here, for example, we quote from Mr. Ambrose Brownell, English holly grower of Milwaukie, Ore., who wrote to his dealer:

"... When I drove that '41 SUPER out of Flint ... and started a circle trip home ... I jotted down each gas purchase and mileage to sort of figure my expenses ...

"It wasn't long before I got suspicious of something wrong ... The gas gauge needle just didn't go down fast enough ...

"But, Roy, all the way home it was the same story. The Buick wormed through miles of city traffic ... made numberless stops to inquire directions, purred along in sizzling heat that made my feet feel like two fried eggs, breezed over the Rockies at 9,000 elevation ... and finally fairly stole home through the sinuous Columbia Gorge ...

"Statistics? Of course: 3,200 miles; 165 gallons ... Ethyl gas; 19.51 miles per gallon; gas expense —1⁹/₁₀₀¢ per mile; total out-of-pocket expense—1²⁸/₁₀₀¢ per mile.

"... Roy, I'm glad I bought a Buick."

Mr. Brownell has other nice things to say about his Compound Carburetion-equipped 1941 SUPER.

But the point is that everywhere Buick is running up such astonishing records for thrift that letters like this are commonplace.

Why not drop in on your local dealer and try out the thrifty traveler that brings us orchids from a holly grower?

WITH YOUR ASSEMBLYMAN THURMAN AT THE STATE CAPITOL

The reapportionment issue will probably be one which will create considerable discussion during the coming weeks. Your assemblyman is a member of the reapportionment committee which will handle all bills pertaining to the reapportionment of the congressional and assembly districts under the new census. Quite naturally your assemblyman will do all in his power to protect the counties which now comprise the Second Congressional and the Sixth Assembly Districts. It is my opinion that there will be no change in the present makeup of these two districts. Congressman Englebright, I feel sure, will continue to represent the eighteen mountain counties which make up the largest congressional district in the United States. These

THURMAN

eighteen counties of the Second District have identical interests such as mining, lumber, stock raising, natural resources, etc. The district has remained practically the same as it is today for some thirty years.

In the assembly, I feel quite certain that the Sixth District will remain as it is. Like the congressional district, the interests of the ten mountain counties which make up the Sixth Assembly District are identical, and geographically they are so situated that from the standpoint of interests an assemblyman can better serve his constituents than if he had to represent mountain and valley counties, in which there might be conflicting interests in matters of legislation. While the population will be larger than some of the other districts, in the interest of legislation, it is highly important that the district remain as it is.

Last week several reapportionment bills were introduced, one of which proposed putting Nevada County in the Second Assembly Distict with Plumas, Lassen, Modoc and other northern counties. Nevada County's interests are tied in with Placer County and the Mother Lode counties, and in no way are their interests linked with district two. We can assure our friends in Nevada County that we will oppose any such suggested change.

The same bill proposed to take Mariposa County from this district and include it with Madera and Merced Counties in the Thirty-third District. This plan, too, is inadvisable inasmuch as Mariposa's inteests are in the Mother Lode district, along with Tuolumne, Calaveras and the other counties of the present Sixth District. So there is not much likelihood that Mariposa will be taken out of the district.

The writer's district is the largest assembly district in the state, but the counties are contiguous and all have identical interests. The fact that the district covers one sixth of the state's total area is no handicap whatever. It would be a handicap if the same assemblyman had to represent both mountain and valley counties and then find himself being forced to oppose a part of his district in favor of another part.

While the business and civic interests of Mono and Inyo Counties are more in the direction of Los Angeles and Southern California, they are mountain counties and to a large extent have the same interests as the balance of the mountain counties which comprise the district. While from the business standpoint it might be advisable for Mono and Inyo Counties to be in with some southern group of counties this is impossible under the regulations pertaining to assembly districts. Where one county has two or more assemblymen they cannot cross the county lines. Neither assemblyman in the San Bernardino County can therefore represent Inyo and Mono, Kern County will probably secure a second assemblyman under the reapportoinment and so any plan to add Mono and Inyo to that county will be out. Tulare County has more than the required population now for one assemblyman and Fresno County has two. So far as Inyo and Mono Counties are concerned it is impossible to place them in any southern district setup.

Mono and Inyo Counties comprise the smallest senatorial district in population in the state and they are ably represented in the senate by Charles Brown of Shoshone. He is on the job at all times and with the writer's support in the lower house, together we are able to handle these two counties and protect their interests.

If present plans are carried out, San Francisco County will lose two assembly districts and Alameda County one. Two new districts will be added in Los Angeles County and one in Kern. However these proposed changes will not be made without a battle as far as San Francisco and Alameda Counties are concerned.

Under the new census, which gives the state a population of 6,907,387, the eighty assembly districts will be appotioned on a population basis of 86,000 to a district.

This figure, of course, cannot be carried out in every district, such as in the rural area, but in the metropolitan centers it will no doubt be followed.

You can rest assured that your assemblyman, as a member of the reapportionment committee, will work to protect the mountain counties, both as to their congressional and assembly districts.

Sierra County SRA Recipients, Only Two

The number of persons receiving SRA unemployment relief in Sierra County dropped from 30 in April, 1940, to 2 in October, according to a recent report of the California Tax payers Association.

The number of persons getting other types of relief in the county, the report pointed out, showed the following trend: 10 persons receiving indigent aid in April, 9 in October; aid to the needy aged, 99 in April, 105 in October; aid to the needy blind, 2 in April, 4 in October; aid to needy children, 10 in April, 8 in October.

Kern County's 1940 farm crops were valued at approximately $30,000,000.

(Continued from Page One)

that they wish the Nevada County Mine Workers Protective League for their bargaining agency, then if the Idaho-Maryland Mines refuses to grant the closed shop, the men will be instructed to strike at the Idaho-Maryland Mines, if that is the expression at today's vote.

"Regardless of what the outcome of the result of the bargaining agency vote of the employees of the Idaho-Maryland Mines, you must vote and are morally obligated to vote at today's election on the strike for the closed shop.

Also to make clear as to the closed shop provisions. To the members, to all employees of the mines and to the public—The Nevada County Mine Workers Protective League does not want the hiring hall. The operators are at liberty to hire whom they please. The organization is not asking the operators to hold out the dues for the organization or to be a party to it.

"All the organization is asking is that the operators agree to recognize the league as the sole collective bargaining agency for all employees of the companies with the closed shop agreement that all employees become members of the Nevada County Mine Workers Protective League.

"Again I say this is the only solution to the conditions which exist in this district. All that I ask is that you vote and stand back of our organization, its officers and your negotiating committee."

If the league members vote in favor of a strike today, further attempts to negotiate a contract with the mine owners with the closed shop clause included. If the negotiation attempts fail, the men will be called from their work within 15 days.

James Green and James Collins are the clerks of the election.

LEGAL NOTICES

NOTICE OF SALE OF PROPERTY DEEDED TO THE STATE FOR DELINQUENT TAXES

Date: January 16th, 1941.

Whereas. I was on the 6th day of January, 1941 directed by the Board of Supervisors of Nevada County, State of California, and there was received by me and filed in my office an authorization of the State Controller dated January 8, 1941, to sell at public auction, for cash in lawful money of the United States, certain tax deeded property, public notice is hereby given that unless the said property is redeemed as provided by law, I will on the 10th day of February, 1941, at the hour of 2 o'clock P. M. in the Tax Collector's office in the Court House of the County of Nevada, in the City of Nevada, sell as directed the said property for a sum not less than the minimum price or prices set forth in this notice.

The parcel of property that is subject of this notice is situated in the County of Nevada, State of California, and is described as follows: E½ of SW¼ of Section 8 Township 14 North Range 9 East and the N½ of NE¼ and NW¼ of Section 8 Township 14 North Range 9 East M. D. B. & M. Minimum Price $267-.50.

Assessed to Estate of R. S. Egbert (Walter Egbert, Agent) for the years 1930 to and including the year 1936.

If redemption of the propety or the initiation of an installment plan of redemption is not made according to law prior to the sale thereof, the right of redemption will cease.

FRANK STEEL,
Tax Collector, Nevada County, State of California.

Date of first publication January 16th, 1941.
Jan. 16, 23, 30.

TREE UPROOTED

A combinde city and Pacific Gas and Electric Company crew uprooted one of the huge popular trees in front of the Nevada City Sanitarium. The tree roots were weakened by erosion and there was some danger of it falling.

STATE'S GOLD OUTPUT IN 1940 50 MILLIONS

SACRAMENTO, Jan. 23. — The value of California's mineral production during 1940 is estimated by the state division of mines at $343,-536,000, nearly nine million dollars less than for the previous year.

Minerals showing declines in production value as compared with 1939 included petroleum, silver, miscellaneous stone and brick. Increases were recorded in the production of cement, tungsten, copper, quicksilver, and minerals of the industrial and saline groups.

Petroleum, by far the state's most valuable product in the mineral group was valued at $210,720,000 for 1940, with 224,167,000 barrels produced during the year. The valuation was off seven per cent from the previous year, most of which was accounted for by lower prices since production was down only 100,000 barrels.

There was a slight increase in the amount and value of natural gas utilized, as compared with 1939, the division reported.

Gold, ranking second in the value of production, totalled $50,000,000 for the year, about the same as in 1939. A total of 1,429,000 fine ounces were produced.

The state's yield of copper, lead and zinc showed marked increases, as did also the production of the strategic metals—quicksilver and tungsten, and to a lesser degree, antimony, chromite and manganese. The output of quicksilver, silver, tungsten and copper each passed the million dollar mark in value.

In the structural group, cement showed increases in both amount and value, offsetting a decreased production of miscellaneous stone, brick and building tile. The increased cement demand was attributed to out of state shipments. Although building permits increased 14 per cent in 51 principal cities of the state, the division said, large public construction was less than in 1939.

Production figures and valuation of the various minerals for 1940 are as follows:

Gold, 1,924,000 fine ounces, $50,-000,000.

Silver, 2,235,000 fine ounces, $1,-589,000.

Copper, 13,366,000 pounds, $1,-520,000.

Quicksilver, 18,000 flasks, $2,-970,000.

Tungsten ore, $1,700,000.

Other metals, including chromite, manganese ore, iron ore, platinum, antimony, zinc, etc., $400,000.

Petroleum, 224,167,000 barrels, $210,720,000.

Natural gas 342,516,000 million cubic feet, $21, 647,000.

Cement, 14,110,00 barrels, $18,-400,000.

Brick and hollow building tile, $2,800,000.

Crushed rock, sand and gravel $10,000,000.

Other structural materials, including bituminous rock, granite, lime magnesite, marble, sandstone and slate, $1,800,000.

Miscellaneous industrial materials, $6,000,000.

Salines, including borates, potash, iodine, salt, soda and others, $14,-000,000.

PROPOSED ACT WOULD SUSPEND ASSESSMENT WORK FOR TEN YEARS

LEGISLATION WOULD APPLY TO PLACER AND LODE CLAIMS ON WHICH $1,000 OF WORK DONE

A suspension of assessment work for ten years on placer and lode mining claims on which more than $1,000 worth of work has been done will be asked of Congress:

The proposed act, which many local mining men favor, reads:

"Be it enacted by the Senate and House of Representatives of the United States of America, in Congress assembled, that the valid owner of each mining claim located (placer or lode), who has performed not less than one thousand dollars worth of work on said mining claim, and having complied with all the state and federal laws, and having paid all the state and county taxes, be allowed a suspension of the annual assessment work, beginning at 12 o'clock meridian July 1, 1940, and ending 12 o'clock meridian July 1, 1950; provided the local taxes are kept paid during the time of suspension period.

"No owner of a mining claim (placer or lode), shall be exempt from doing the annual assessment work, until he has peformed ten annual assessments, for a period of times as shown by documentary evidence, duly sworn to and recorded and who has not or does not keep his local taxes paid. Otherwise if he is in good standing, he shall be exempt from doing further assessment work for a like period of ten years.

"Failure to resume the annual assessment work after the ten years suspension period, shall subject the said claim to relocation.

"The assumption being, that any mining claim that has had the assessment work done and all local taxes paid, for a period of ten years or more, must have some merit as a mine, but due to the drop in prices the past ten years and still happening, and to other unforseen and unavoidable causes, such as lack of capital, the owner is not able to operate and must have protection for the money honestly expended, until such time as conditions change for the better."

Concrete pouring operation at the Shasta Dam have passed the 500,-000,000 cubic yard mark.

Chief of Police.

NOTICE!

IN ORDER THAT ITS POSITION MAY BE PERFECTLY CLEAR, AND TO AVOID ANY MISUNDERSTANDING ON THE PART OF ANY EMPLOYEE, OR ON THE PART OF THE CITIZENS OF NEVADA COUNTY, EMPIRE STAR MINES COMPANY MAKES THE FOLLOWING STATEMENT:

IT RECOGNIZES AND DESIRES TO CONTINUE TO RECOGNIZE THE NEVADA COUNTY MINE WORKERS PROTECTIVE LEAGUE AS THE SOLE BARGAINING AGENCY WITH WHICH IT WILL DISCUSS CONDITIONS OF EMPLOYMENT AT ITS PROPERTIES. IT RECOGNIZES THE LEAGUE AS DULY AUTHORIZED TO SPEAK FOR ALL EMPLOYEES WHO ARE MEMBERS OF THE LEAGUE. IT HAS HAD NO DISPUTE, AND HAS NO DISPUTE NOW WITH THE LEAGUE AS TO PAY, OR AS TO HOURS, OR CONDITIONS OF WORK.

THE SOLE QUESTION ON WHICH EMPIRE STAR MINES COMPANY HAS BEEN UNABLE TO AGREE WITH MR. DONNELLY HAS BEEN AND IS THAT THE COMPANY REFUSES TO REQUIRE ALL EMPLOYEES, AS A CONDITION OF THEIR EMPLOYMENT, TO JOIN THE LEAGUE.

SUCH PROCEDURE THE COMPANY BELIEVES TO BE UN-AMERICAN AND OF DOUBTFUL LEGALITY.

IT IS THE RIGHT OF ANY EMPLOYEE TO JOIN ANY UNION OR NO UNION. AS LONG AS THE COMPANY CONTINUES TO OPERATE ITS MINES IT WILL DECLINE TO FORCE ANY EMPLOYEE TO JOIN ANY UNION.

Empire-Star Mines Company, Limited

(Signed) FRED SEARLS, JR., PRESIDENT.

MEMBERS OF THE

MINE WORKERS PROTECTIVE LEAGUE

In connection with the labor situation and also the strike vote that is to be taken Thursday, January 23, there seems to be some misunderstanding.

To clear this up, I would like to make this statement, and I want to call the attention of the members who are employees of the Idaho-Maryland Mines in particular.

Every member who is an employee of the Idaho-Maryland, Brunswick or Bullion mines is morally obligated and requested to vote at the election Thursday to strike unless the closed shop is granted.

In the event that the employees of the Idaho-Maryland Mines vote that they wish the Nevada County Mine Workers Protective League for their bargaining agency, then if the Idaho-Maryland Mines refuses to grant the closed shop, the men will be instructed to strike at the Idaho-Maryland Mines, if that is the expression at Thursday's vote.

Regardless of what the outcome of the result of the bargaining agency vote of the employees of the Idaho-Maryland Mines, you must vote and are morally obligated to vote at Thursday's election on the strike for the closed shop.

Also to make clear as to the closed shop provisions. To the members, to all employees of the mines and to the public —the Nevada County Mine Workers Protective League does not want the hiring hall. The operators are at liberty to hire whom they please. The organization is not asking the operators to hold out the dues for the organization or to be a party to it.

All the organization is asking is that the operators agree to recognize the league as the sole collective bargaining agency for all employees of the companies with the closed shop agreement that all employees become members of the Nevada County Mine Workers Protective League.

Again I say this is the only solution to the conditions which exist in this district. All that I ask is that you vote and stand back of our organization, its officers and your negotiating committe.

OLNEY DONNELLY,
President.

SPORTS

LOCALS READY FOR INVADING ROSEVILLE TIGER BASKET SQUADS

YELLOWJACKETS PRACTICE STRENUOUSLY THROUGHOUT WEEK FOR TOMORROW'S LEAGUE BATTLES

The local high school Yellowjackets are prepared to give the invading Roseville Tigers a tough battle when the two teams tangle here tomorrow night in a Sierra Foothill League contest.

Coach Ed Frantz' boys have been practicing industriously all week for tomorrow night's games, hoping to upset the heavily favored Tigers.

The B contest between the two schools will start at 7 p. m. with the A game following immediately thereafter.

The probable starting lineups for the A game will be:

Allen Spracklen and Ed Jacobs, forwards; Clifford Masterson, center; Ronald Joyal and Chick Thomas, guards.

The B game starting lineup will be:

Everett Angove and Dick Gregory, forwards; Clement Henwood, center; Roy Leonard and either Howard Ronnigen or Warren Smith in the guard posts.

PEPSI COLA FIVE TO FACE OZARK HILL BILLIES

The Nevada City Pepsi Cola Basketball team will play the Ozark Hill Billies, an all-girl's team from Cassville, Mo., on Thursday, February 13th.

The Hill Billies average near six feet in height and are expected to surprise Nevada City hoop fans with trick shots and accurate passing. Jane Darows, the Hill Billies 6 foot 2 inch center, leaves fans breathless with her outstanding accuracy from all corners of the court.

The game will be played at the Nevada City High School gymnasium.

The Pepsi Cola squad, sponsored by Joe Cartoscelli and coached by Ray Wilde, Jr., is composed of Babe Santinelli, Babe Childers, Karl Kopp, Max Ruth, "Punky" Clark and "Junior" Murray.

New Phase Of Bear Valley Road Must Be Considered Before Improvements Made

Assurance the Sacramento Valley Council of the State Chamber of Commece is working diligently in behalf of the improvement of the Tahoe-Ukiah Highway in Bear Valley was given in a letter from Fred Tatton, manager of the Sacramento Valley Council, to H. F. Sofge, local chamber secretary.

"I want to assure you that we are doing everything possible to advance the Bear Valley project," Tatton wrote.

"There are phases of this Bear Valley problem which will have to be staightened out before any improvement can be made. You know that the present route, and as a matter of fact, any other route through Bear Valley, will traverse the land of the Pacific Gas and Electric Company, which is presumed to be a reservoir site, although from what I can understand, it is not proposed to use it since other developments have taken place higher up. In this regard, Mr. Hallen (director of the state chamber's highway department) advises me as follows:

P. G. & E. Land

"'Further referring to your memo relative to the status of land ownership in Bear Valley on Route 20, I am advised by the head office of the P. G. & E. that most of the land in Bear Valley is owned by the P. G. & E. and they are well satisfied, so far as their operations are concerned, with the present highway routing. They do not desire to make any statement regarding any proposed rerouting or opposition thereto until they can find out pretty closely what the new route would be. I have established contact with the proper departments from whom we can get an opinion as soon as the exact suggested rerouting is determined."

"It is, therefore, my suggestion that at an early meeting of the commission a request be made for a survey of the route through Bear Valley and when the survey is made, it then gives us an opportunity to proceed on this question referred to above."

FAREWELL PLANNED

Service and civic clubs of Nevada City and Grass Valley will meet in the chamber of commerce headquarters in Grass Valley Monday night to complete plans for a farewell celebration for the 24 Nevada County military training selectees who will leave February 1st.

The Hague-Thomas-Hegarty Post of the American Legion is sponsoring the program for the selectees. The entertainment for the departing men will be held next Thursday night at the Veterans Memorial Building in Grass Valley.

Walter St. John of this city spent Tuesday in the Big Bend district skiing.

Confined To Home—

Charles W. Leiter, local automobile dealer, is confineed to his home on East Broad Street by illness.

POLITICAL PARADE

By CLEM WHITAKER

It is still too early to forecast whether the 1941 Legislature will parallel the protacted 1939 session in number of bills and length of days but there are certain telltale signs which point to the worst, even though leaders in the two houses are doing everything in their power to streamline legislative procedure.

The lawmaking machinery can be geared to avert lost motion and tedious delays, but as yet no one has been able to devise a means of inducing legislators to forget pride of authorship and bury their dead brain-children, instead of trying vainly to infuse them with new life at each succeding session.

During 1940, American aircraft manufacturers delivered six times as many airplanes to Great Britain and Canada as they did in 1939.

DEATHS

WELDON—In Grass Valley, January 21, 1941, Clarence M. Weldon, husband of Nellie Weldon, father of Miss Nellie Weldon of Sacramento; Earl Weldon of Glendale and Clarence Weldon of Santa Maria; a native of Santa Clara County, aged 77 years. The funeral services were held in Grass Valley today under the direction of the Holmes Funeral Home.

Local Miner Held For Authorities Of Duluth, Minnesota

Roland DeGrio, 24, a resident of this district for the past several years, is being held in the county jail here for authorities of Duluth, Minn., where he is wanted on a felony charge of failure to provide for a minor child.

DeGrio indicated he would fight extradition. He had been employed at the Scotia Mine in Grass Valley.

Santa Fe Trail On Screen Here Sunday

Errol Flynn, that most handsome of all the swashbuckling screen adventurers, is waving sabers, firing pistols, flailing fists and galloping horses again, this time in "Santa Fe Trail," which is to have its local premiere Sunday at the Nevada Theatre. And back of the cameras was the old master of fast action and solecisms, Michael Curtiz, the director credited with "discovering" Flynn (it was in "Captain Blood") and who has guided Errol through six or seven pictures since that time.

Back too, in Flynn's arms, is Olivia de Haviland, just to make the reunion complete. Starting with that same "Captain Blood" they have been in a half dozen or more pictures together, indicating that Warner Bros. consider it a sort of "by public demand" obligations. Fan approval, indicated by mail received long has proved the studio right.

But don't get the idea that "Santa Fe Trail" is following any formula just because Olivia, Errol and Curtiz are together again. The story is several of the most exciting chapters right out of our American history books, knit together in dramatic pattern by Virginia-born Robert Buckner, Warner studio scenarist.

FOREST SERVICE SURVEYS NUMBER USING SNOW SPORTS FACILITIES IN TAHOE AREA

Counts of skiers in the Tahoe National Forest, Highway 40 area, show approximately 13,000 man days of skiing for the period January 6 to 19, inclusive. These surveys of recreation on the Tahoe national forest are kept by forest officers for the purpose of determining the increase or decrease in this type of national forest use. The basis for these figures are parked car counts, plus persons coming into the area by train. These figures therefore represent actual man days of skiing since through traffic is not considered. The average automobile carries 3.4 persons.

Increase Expected

According to Supervisor Guerdon Ellis, of the Tahoe Forest, it is too early yet to determine the per cent of increase over last year. A comparison of one week as against the similar week a year ago does not mean much since snow conditions and the highway access may not correspond. At the close of the 1941 season, however, the total man days of skiing is expected to reflect approximately a 30 per cent increase over 1940. Since some stores reported a 30 per cent increase in sales of ski equipment and clothing this year, there may be a close connection between sales of equipment and man days of skiing as counted on the Tahoe Forest.

Sugar Company Official Tells Of Progress Of Sugar Beet Industry

Interesting facts about the sugar industry in the Sacramento Valley were given by Ronald B. Hayes, sales manager for the Spreckles Sugar Company, in a talk before the Grass Valley Rotary Club Monday.

Hayes states there are 60,000 acres of sugar beets planted in the Sacramento Valley between Rio Vista and Red Bluff. He said his concern expects to pay sugar beet growers $8,000,000 this year and an additional $1,000,000 to employees. He stated last year his company manufactured 4,000,000 one hundred pound sacks of beet sugar.

The speaker pointed out chemically, and also in appearance, there is no difference between cane sugar and beet sugar. He urged the use of beet sugar to encourage a local industry.

Clyde Gwin of this city was in attendance at the meeting.
